IMPORTANT SAFETY INFORMATION

⚠️ WARNING

Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire and/or serious injury. Save all warnings and instructions for future reference.
Installation Precautions

1. Check federal, state and local surveillance laws before installing video and/or audio surveillance equipment.
2. Install only according to these instructions. Improper installation can create hazards.
3. Do not overreach when installing this product. Keep proper footing and balance at all times. This enables better control in unexpected situations.
5. Keep installation area clean and well lit.
6. Keep children and bystanders out of the area during installation.
7. Do not install when tired or when under the influence of alcohol, drugs or medication.

Use Precautions

1. This product is not a toy. Do not allow children to play with or near this item.
2. Use as intended only.
3. Do not modify.
4. Maintain product labels and nameplates. These carry important safety information. If unreadable or missing, contact Harbor Freight Tools for a replacement.

Electrical Safety

1. Power Adapter plug must match the outlet. Never modify the plug in any way. Unmodified plugs and matching outlets will reduce risk of electric shock.
2. Do not expose Receiver to rain or wet conditions. Water entering the Receiver will increase the risk of electric shock.
3. Do not abuse the cord. Never use the cord for carrying, pulling or unplugging the Receiver. Keep cord away from heat, oil, sharp edges or moving parts. Damaged or entangled cords increase the risk of electric shock.

Service

Have your Surveillance equipment serviced by a qualified repair person using only identical replacement parts. This will ensure that the safety of the equipment is maintained.

Camera Safety Warnings

1. To prevent electric shock, do not attempt to disassemble Cameras. There are no serviceable parts inside.
2. Use supplied Power Adapters only.
3. Do not expose the Power Adapters to rain or wet conditions. Water entering the Power Adapters will increase the risk of electric shock.
4. Do not abuse the Power Adapter cords. Never use the cords for unplugging the plug from the outlet. Keep cords away from heat, oil, sharp edges or moving parts. Damaged or entangled cords increase the risk of electric shock.
5. Handle Cameras with care. Cameras could be damaged by improper handling or storage.
Receiver Safety Warnings

1. Maintain adequate airflow around Receiver.
2. Use supplied Power Adapter only.
3. **Do not expose the Power Adapter or Receiver to rain or wet conditions. Water entering the Power Adapter or Receiver will increase the risk of electric shock.**
4. **Do not abuse the Power Adapter cord. Never use the cord for unplugging the plug from the outlet. Keep cord away from heat, oil, sharp edges or moving parts. Damaged or entangled cords increase the risk of electric shock.**
5. Maintain labels and nameplates on the unit. These carry important safety information. If unreadable or missing, contact Harbor Freight Tools for a replacement.
6. People with pacemakers should consult their physician(s) before use. Electromagnetic fields in close proximity to heart pacemaker could cause pacemaker interference or pacemaker failure.
7. **WARNING: The cord of this product contains lead and/or di (2-ethylhexyl) phthalate (DEHP), chemicals known to the State of California to cause cancer, and birth defects or other reproductive harm. Wash hands after handling.** (California Health & Safety Code § 25249.5, et seq.)
8. **WARNING: This product contains or, when used, produces a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.** (California Health & Safety Code § 25249.5, et seq.)
9. The warnings, precautions, and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be supplied by the operator.

**SAVE THESE INSTRUCTIONS.**

**Grounding**

**WARNING**

TO PREVENT ELECTRIC SHOCK AND DEATH FROM INCORRECT GROUNDING WIRE CONNECTION:

Check with a qualified electrician if you are in doubt as to whether the outlet is properly grounded. Do not modify the Power Adapter plugs provided. Do not use the equipment if the power cord or plug is damaged. If damaged, have it repaired by a service facility before use. If the plug will not fit the outlet, have a proper outlet installed by a qualified electrician.

![figure A](image)

1. The included Power Adapters do not require grounding.
2. The Power Adapters may be used in either of the 120 volt outlets shown in the preceding illustration. (See Figure A.)

**Extension Cords**

*Note:* Do not use extension cords with the Power Adapters.

Set up - Before Use:

⚠️ Read the ENTIRE IMPORTANT SAFETY INFORMATION section at the beginning of this manual including all text under subheadings therein before set up or use of this product.

Receiver Components and Controls

Back

![Diagram of receiver components and controls]

**Accessories**

- USB to Mini-B Cable
- Mounting Hardware
- Mounting Bracket
- 5VDC Power Adapter
- Driver CD
- RCA A/V Cable

**Figure B**

**Figure C**
Assembly

Thread the Antenna into the Antenna Connector on the back of the Receiver.

Before Mounting

When planning Receiver location:

1. Verify that installation surface has no hidden utility lines before drilling or driving screws.
2. Select a clean, dry location indoors with a 120V outlet nearby.
3. Take into consideration the length of the Power Adapter's cord.

**CAUTION!** Route the cord so as to avoid a tripping hazard.

4. Make sure the location will remain within the Receiver's Operating Temperature.

Tabletop Mounting

Place Receiver on a flat, level surface. Adjust the Stand until desired position is achieved.

Wall or Under Cabinet Mounting

Using the Base as a template, mark locations of mounting holes on mounting surface.

Solid Surface

1. Using a drill bit slightly smaller than the Screws, drill pilot holes into the marked locations.
2. Position Mounting Bracket so that mounting holes align with pilot holes.
3. Drive Screws through mounting holes in Base and into pilot holes until the Mounting Bracket is securely attached to the mounting surface.
4. Attach Receiver to Mounting Bracket, then loosen Adjustment Knobs, adjust Receiver as needed, then tighten Adjustment Knobs.

Hollow Surface

1. Using a drill bit slightly smaller than the Anchors, drill holes in the marked locations.
2. Tap Anchors into the holes until they are almost flush with mounting surface.
3. Position Mounting Bracket so that Mounting Holes align with anchor holes.
4. Drive Screws through mounting holes in Base and into anchor holes until the Mounting Bracket is securely attached to the mounting surface.
5. Attach Receiver to Mounting Bracket, then loosen Adjustment Knobs, adjust Receiver as needed, then tighten Adjustment Knobs.

Connect Power

1. Connect the Power Adapter's cord to the back of the Receiver.
2. Plug the Power Adapter into a 120VAC outlet.
3. Turn the Power Switch to the **ON** position.
Camera Components and Controls

Assembly

Thread the Antenna into the Antenna Connector on the back of the Camera.

Before Mounting

Note: The included Cameras are programmed to automatically connect to Channel 1 and Channel 2.

1. When planning mounting location and angle:
   a. Verify that installation surface has no hidden utility lines before drilling or driving screws.
   b. Take into consideration the length of the Camera and Power Adapter’s cords. Route the cords so as to avoid a tripping hazard.
   c. Do not install where there are thick walls or other obstructions between the Camera and Receiver.
   d. Select a location high enough so that it is out of reach of children, but still covers the desired viewing area.
   e. Do not install the Camera facing out of a window.
   f. Make sure no strong light will shine directly into Camera Lens.
   g. Make sure location will remain within the Camera’s Operating Temperature.

2. Test each Camera’s function in its intended location before mounting:
   a. Connect the Power Adapter’s cord to the Camera’s Power cord.
   b. Plug the Power Adapter into a 120VAC outlet.
   c. Verify that there is an image on the Receiver.

Note: If there is no image, pair the Camera to the Receiver according to Pairing on page 11.
d. Check the Camera's signal strength.
   Touch 📞 to check Camera 1.

   **Note:** Touch 📞 again to check other Camera(s).

   | Excellent | Optimal | Good | Acceptable | Low | Needs Adjustment |

   ![Figure H](image)

**Mounting to Solid Surface**

1. Using a drill bit slightly smaller than the Screws, drill pilot holes into the marked locations.
2. Position Mounting Bracket so that mounting holes align with pilot holes.
3. Drive Screws through mounting holes in Base and into pilot holes until the Mounting Bracket is securely attached to the mounting surface.
4. Remove protective film from the Lens.
5. Attach Camera to Mounting Bracket, loosen Adjustment Knob, adjust Camera as needed, then tighten Adjustment Knob. *(See Figure I)*

**Mounting to Hollow Surface**

1. Using a drill bit slightly smaller than the Anchors, drill holes in the marked locations.
2. Tap Anchors into the holes until they are almost flush with mounting surface.
3. Position Mounting Bracket so that Mounting Holes align with anchor holes.
4. Drive Screws through mounting holes in Base and into anchor holes until the Mounting Bracket is securely attached to the mounting surface.
5. Remove protective film from the Lens.
6. Attach Camera to Mounting Bracket, loosen Adjustment Knob, adjust Camera as needed, then tighten Adjustment Knob. *(See Figure I)*

**Connect Power**

1. Connect the Power Adapter’s cord to the Camera’s Power cord.
2. Plug the Power Adapter into a 120VAC outlet.

---

For technical questions, please call 1-888-866-5797.
Viewing Modes

- **Camera Sequence** (Default mode) - Automatic cycling between Cameras.
  Touch ▼ to toggle between Camera Sequence and 4 Camera.
- **4 Camera** - View all Cameras at the same time.
  Touch ▼ to toggle between 4 Camera and Camera Sequence.
- **Single Camera** - View one Camera at a time.
  Touch ▲ to switch between Cameras.
- **Zoom** - Push the ZOOM button on the back of the Receiver to zoom in during Single Camera Viewing Mode only.
- **Screen Saver** - Mask Camera view with a blank screen or image(s).
  See Screen Saver on page 11.

Set Up

### Menus

- Touch Menu to view Menus.
- Touch ▼ ▼ to navigate through Menus.
- Touch OK to access highlighted Menu.
- Touch ▲ ▲ ▲ ▲ to navigate within Menus.
- Touch ▼ ▼ at any time to cancel an action and/or go to the previous screen.

### Menu > Recording

1. Insert an SD card to enable recording. SD will display to indicate the card is functioning properly.
2. Touch Menu then select Recording.
3. **Quality**: Select HIGH (640 x 480) or LOW (320 x 240), then touch OK.
4. **Motion Record**:  
   a. **Duration**: Select the amount of time to record after motion has been detected, then touch OK.
   b. **Recording Mode** Select from below, then touch OK:
      - **4 Channel**: Record all channels when a single camera detects motion.
      - **Single Channel**: Record the channel for the Camera that detects motion.
5. **Schedule Record**:  
   **Note**: Date and time must be set before setting up Scheduled Recording. See Date & Time on page 11.
   a. Select a day to schedule, then touch OK.
   b. Enter **Start Time** and **End Time**, then select **ON**.
   **Note**: Time is in 24 hour format.
   c. Repeat steps for other days.
   **Note**: For manual recording, see Manual Recording on page 14.
6. **Overwrite**:  
   a. Select **Yes** to overwrite previously recorded files when the SD card is full.
   **Note**: After selecting Yes, ▲ will display while in Auto Sequence mode.
   b. Select **No** to keep all files.
   **Note**: After selecting No, when the SD card is full, the Receiver will stop recording and the FULL indicator will display.

### Menu > Camera On/Off

1. Touch Menu then select Camera On/Off.
2. Touch ▲ ▼ to select a Camera.
3. To turn the Camera off, touch ▼ to select OFF.
4. To turn the Camera on, touch ▲ to select ON.
5. Repeat steps for other Cameras.
6. Touch OK to save changes.
Menu > Settings

1. Touch ⌁ then select Settings.
2. Date & Time: Set date and time, then touch OK.

Note: Time is in 24 hour format.
3. Video Output: Select NTSC, then touch OK.
4. Format Memory: Select Yes or No, then touch OK.

NOTICE: Touching OK while Yes is selected will erase all files from the Micro SD Card.

5. Alarm Volume: Touch ⌁ to increase volume. Touch ⌁ to decrease volume, then touch OK.

Note: This function also controls the volume when using AV Output.

6. Auto Mute: To mute Cameras when sound level is low. Select ON or OFF, then touch OK.

7. Default Settings: To return all Settings to factory default settings. Select Yes or No, then touch OK.

Menu > Detect

1. Touch ⌁ then select Detect.
2. Select Camera, then touch OK.
3. Select Sensitivity Settings, then touch OK.
4. Repeat steps for other Cameras.

Menu > Brightness

To control the brightness of each Camera.

1. Touch ↑ to select a Camera.
2. Touch ⌁ then select Brightness.
3. Touch ⌁ to increase brightness.
   Touch ⌁ to decrease brightness, then touch OK.
4. Repeat steps for other Cameras.

Menu > Screen Saver

To conceal the fact that the Receiver is a Security System.

1. Touch ⌁ then select Screen Saver.
2. Select Blank Screen for a blank screen or select Photo Frame to add your own image(s), then touch OK.

Note: To add your own image(s), see Using Screen Saver on page 14.

Menu > Pairing

When adding Cameras, they will need to be programmed manually (paired) to work with the Receiver.

1. Before installing Camera(s):
   a. Connect the Power Adapter’s cord to the Camera’s Power cord.
   b. Plug the Power Adapter into a 120VAC outlet.
   c. Determine which Channel is available to use.
   d. Touch ⌁ then select Pairing.
   e. Select the Channel.
   f. Double tap the Pair Button on the back of the Camera.
2. Install Camera(s) according to Mounting on page 9.

Connecting A/V Output

To view on another device, such as a television.

1. Connect black plug of RCA Cable into AV Out port on back of Receiver.
2. Connect white and yellow plugs into corresponding inputs on device.
3. Press and release ⌨ to view on device.

Item 62368
For technical questions, please call 1-888-866-5797.

**Figure K**
### Manual Recording

**Note:** Manual Recording overrides all other functions, including Scheduled Recording.

To record all Cameras, touch ☑️ to set Viewing Mode to 4 Camera.
To record an individual Camera, touch ▲ until desired Camera is displayed.

1. Touch 📹 to start recording.
   *REC* and 1-130836.AVI will display.
2. Touch 📹 again to stop recording.
   *NEW* will display and 🎥 will flash.

**Note:** Manual Recording will not work if Manual Motion Detection is activated.

### Video Motion Detection

**Note:** Video Motion Detection overrides Scheduled and Manual Recording.

To record all Cameras, touch ☑️ to set Viewing Mode to 4 Camera.
To record the Camera that has been activated, set Viewing Mode to Camera Sequence.

1. Touch 🚲 to activate motion detection.
   MOTION will display.
2. When motion has been detected, recording will begin.
   *REC* and 1-130836.AVI will display.
3. Touch 🚲 again to deactivate motion detection.

**Note:** Recording will occur for the duration specified in Recording Set up.

### Using Screen Saver

1. Uploading Images:
   **Note:** Mac is not supported for this function.
   a. Connect the USB cable to the computer where the images are stored.
   b. On the back of the Receiver, press and hold X and, at the same time, connect the Mini-B end of the USB cable to the Receiver.
   c. "USB PC MASS STORAGE MODE" will display on the Receiver's screen.
   d. An autorun window will appear on the computer, open the folder to view files, then run PHOTORUN.EXE.
2. Select a folder to upload images from the computer to the SD card in the Receiver.
3. Browse the computer for images.
   **Note:** All images can be viewed on Receiver, but only images from the FAMILY folder will appear on the Screen Saver.
4. When finished, disconnect the USB cable.
5. Touch 📸 to activate the Screen Saver.
6. Touch 📸 again to return to Viewing Mode.
   **Note:** Screen Saver will not activate when in 4 Camera Viewing Mode.
Using Intercom

Allows audio communication between the Receiver and the Cameras.

Setting Receiver Volume

**Note:** The Camera volume cannot be adjusted. **Note:** indicates Receiver volume is off.

Touch \( \uparrow \) to increase volume.

Touch \( \downarrow \) to decrease volume.

Speaking through Intercom

1. Touch \( \uparrow \) to select the Camera to speak through.

2. Touch and hold the Intercom Icon and speak in a normal voice within 12 inches from the Receiver.

3. Release the Icon to listen.
Playback Files on Receiver

When there is a new recording, **NEW** will display and **will flash.

**To view Recordings:**

1. In any Viewing Mode, touch **OK** to enter **PLAY FILE** mode.
2. Select **VIDEO**, then touch **OK**. Folders are organized by date, oldest to newest.
3. Select a date, then touch **OK**. Recordings are organized by time, oldest to newest.
4. Select a recording, then touch **OK** to view the recording.
   a. Touch ✅ to stop to go back to the beginning of recording.

**Note:** While stopped, touch 💧 to view the next recording.
   b. Touch ✅ to play and pause.
   c. Touch 💧 to rewind.
   d. Touch 💧 to fast forward.

**To view images:**

1. In any Viewing Mode, touch **OK** to enter **PLAY FILE** mode.
2. Select **PHOTO**, then touch **OK**.
3. Select one of the folders, then touch **OK**.
   a. **FAMILY** - Where Screen Savers images are stored.
   b. **FRIENDS**
   c. **PERSONAL**
4. Select an image file, then touch **OK**.
5. Touch 💧 or 💧 to scroll through images.

**Playback Files on Other Device**

1. Remove the SD card from the Receiver.
2. Insert SD card into device's card slot.
3. Follow device's instructions to view files.

**Delete Files**

**IMPORTANT: DO NOT DELETE FILES USING A COMPUTER. ONLY DELETE FILES USING THE SYSTEM.**

1. In any Viewing Mode, touch **OK** to enter **PLAY FILE** mode.
2. Select file to delete.
3. Press and release ✗ on the back of the Receiver.
4. Select Yes or No, then touch **OK**.
Remote Viewing through Skype™

<table>
<thead>
<tr>
<th>PC System Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>CPU</strong></td>
</tr>
<tr>
<td><strong>Skype™</strong></td>
</tr>
</tbody>
</table>

**Note**: When remotely connected through Skype, audio monitoring and video recording are temporarily disabled.

### Install Camera Driver on Computer

**Note**: Installing driver is necessary for compatibility.

1. Insert the included Driver CD into the computer or visit www.harbrofreight.com, search for 62368 and click on Software Update tab.
2. An Autorun window will open. Double click to install the driver.
3. Follow the on-screen instructions to complete the driver installation.

### Connect Receiver to Computer

**IMPORTANT**: The Receiver must be connected to the computer at all times to use this feature.

1. Pair the Camera you want to view via Skype with Channel 1.
2. Connect the Receiver to the computer with the included USB to Mini-B cable.
3. "USB PC CAMERA MODE" will display on the Receiver.

### Create Skype Accounts

1. If you don't have a personal Skype account, create one for yourself.
2. Create a separate account for the Receiver.
3. When you first sign in to the Receiver's account, the Set up Wizard should run:
   a. In the Video drop down menu, select Wireless Monitoring System. You will see the live feed from the Camera.
   b. Continue through set up.
   c. Go to Tools>Options>Calls.
   d. For Allow Calls From, Select People in my Contact List Only.
   e. In Advanced Options, select Answer Incoming Calls Automatically and Start My Video Automatically.
   f. Add your personal account to the Receiver's contact list.
   g. Send your personal account a contact request.
   h. From another computer or mobile device, sign in to your personal account.
   i. Accept the contact request from the Receiver's account.
   j. Call the Receiver's account. You will see the live feed from the Camera.

**Note**: This setting can also be found in Tools>Options>Video Settings.
Maintenance Instructions

Procedures not specifically explained in this manual must be performed only by a qualified technician.

Camera Maintenance

**WARNING**

**TO PREVENT SERIOUS INJURY FROM ELECTRIC SHOCK:**

Unplug the Power Adapter from its electrical outlet before inspection, maintenance, or cleaning.

1. **PERIODICALLY**, inspect the general condition of the Camera. Check for:
   - loose hardware,
   - damaged cord/electrical wiring,
   - cracked or broken parts, and
   - any other condition that may affect its safe operation.

2. **PERIODICALLY**, wipe external surfaces of Camera with clean cloth.

3. Maintain area surrounding Camera, making sure obstacles don’t interfere with visibility, such as overgrown bushes.

FCC NOTICE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The antenna used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operated in conjunction with any other antenna or transmitter.
Limited 90 Day Warranty

Harbor Freight Tools Co. makes every effort to assure that its products meet high quality and durability standards, and warrants to the original purchaser that this product is free from defects in materials and workmanship for the period of 90 days from the date of purchase. This warranty does not apply to damage due directly or indirectly, to misuse, abuse, negligence or accidents, repairs or alterations outside our facilities, criminal activity, improper installation, normal wear and tear, or to lack of maintenance. We shall in no event be liable for death, injuries to persons or property, or for incidental, contingent, special or consequential damages arising from the use of our product. To the extent that this product is used with software other than what is provided, we shall in no event be liable for any damage to your computer or loss of data. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation of exclusion may not apply to you. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.

To take advantage of this warranty, the product or part must be returned to us with transportation charges prepaid. Proof of purchase date and an explanation of the complaint must accompany the merchandise. If our inspection verifies the defect, we will either repair or replace the product at our election or we may elect to refund the purchase price if we cannot readily and quickly provide you with a replacement. We will return repaired products at our expense, but if we determine there is no defect, or that the defect resulted from causes not within the scope of our warranty, then you must bear the cost of returning the product.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
