## ⚠ WARNING

### To prevent serious injury:

1. Keep out of reach of children.
2. The brass components of this product contain lead, a chemical known to the State of California to cause birth defects (or other reproductive harm). (California Health & Safety code § 25249.5, et seq.)
3. Functional sextant for display only; do not use for navigation.
4. Do not look at the Sun; severe eye damage could result.

This decorative brass sextant is a classic nautical tool, first used by sailors over 100 years ago.

Sextants are still used as a back up form of navigation if there is no GPS.

A sextant measures the angle of stars above the horizon to calculate global position.

Learn more about celestial navigation and the history of the sextant by keying "sextant" into a web browser such as Google.®

### SEXTANT CARE

1. When discoloration or deterioration of the finish occurs, use a soft cloth to wash with warm, soapy water. Dry immediately.
2. Polish with a commercially available brass polish following manufacturer's instructions.
3. Preserve finish by applying a light coat of wax, then buffing it, using a soft polishing cloth.
