## IMPORTANT SAFETY INFORMATION

### Assembly Precautions

1. Mount only according to these instructions. Improper mounting can create hazards.
2. Wear ANSI-approved safety goggles and heavy-duty work gloves during mounting.
3. Verify that installation surface has no hidden utility lines before drilling or driving screws.
4. Be careful of sharp corners during mounting.
5. Do not mount the Key Box when tired or when under the influence of drugs or medication.

### Use Precautions

1. This product is not a toy. Do not allow children to play with keys or the Key Box.
2. Use as intended only.
3. Keep locking keys stored in secure location away from children.
4. The brass components of this product contain lead, a chemical known to the State of California to cause birth defects (or other reproductive harm). (California Health & Safety code § 25249.5, *et seq.*)
5. Maintain product labels and nameplates. These carry important safety information. If unreadable or missing, contact Harbor Freight Tools for a replacement.

## MOUNTING INSTRUCTIONS

---

Read the **ENTIRE IMPORTANT SAFETY INFORMATION** section at the beginning of this document including all text under subheadings therein before set up or use of this product.

1. Set the Key Box up on the location where you wish to mount the Key Box. Use a pencil to mark the location of four mounting holes. Set the Key Box aside.
2. **NOTE:** It is best to mount on a wood surface. If not available use the included dry wall anchors when mounting.
3. Drill four holes of the appropriate size (where previously marked with a pencil) into the wall.
4. **CAUTION!** Before drilling holes, verify that there are no hidden electrical wires or cords under mounting area.
5. Line up the four mounting holes on the back of the Key Box with the holes drilled into the wall. Use the included mounting screws to fasten Key Box to wall.
6. Continue to tighten the screws until the Key Box is fastened securely in place.

## INSTRUCTIONS

---

1. Hook the multi-colored strips with key hooks in the spacers along the inside of the cabinet and along the door. Be sure they are attached level and evenly spaced.
2. Come up with an organizing system that best suits your purpose for the Key Box. For example, the multi-colored strips could indicate which floor an auto is located on or which area the car is parked.

The corresponding Key Tags in the poly bag can also work as a location or identification device.

A numbered identification sheet is installed inside the Key Box to also help with organization. See photo, above.

3. For security or for keys left unattended, use the provided keys to lock the Key Box.
4. To label the key tags, remove the key ring from the hole in the tag. Slide the plastic cover out through the slot in the tag. Mark the label and replace the plastic slip cover and key ring.
5. Keep Key Box clean and organized. Wipe off dust using a damp cloth. Then dry.
