1/3 HP 3 GAL 100 PSI OILLESS AIR COMPRESSOR
START UP GUIDE

1. Connect AIR LINE to Coupler.

2. CLOSE DRAIN VALVE at bottom of tank.

3. Plug cord into grounded 120 Volt outlet and turn POWER SWITCH ON.
   AFTER STARTING, wait until compressor shuts off before using. (about 4 minutes)

4. If COMPRESSOR does not start, check FUSE, replace if needed.
