EFFECTS.

1.1	Product Name:	BATTERY FOR DOOR/WINDOW ENTRY ALARM
1.2	Chemical Name:	Alkaline Battery
1.3	Synonyms:	P/N 94983
1.4	Trade Names:	Bunker Hill Security
1.5	Product Uses & Restrictions:	Electric Storage Battery
1.6	Distributor's Name:	Harbor Freight Tools USA, Inc.
1.7	Distributor's Address:	26541 Agoura Road, Calabasas, CA 91302 USA
1.8	Emergency Phone:	CHEMTREC: +1 (703) 527-3887 / +1 (800) 424-9300 (CCN 676687)
1.9	Business Phone / Fax:	+1 (805) 388-1000
		2. HAZARDS IDENTIFICATION
2.1	Hazard Identification:	This product is classified as a hazardous substance and as dangerous goods according to the classification criteria of [NOHSC: 1088 (2004)] and ADG Code (Australia).

WARNING! HARMFUL IF SWALLOWED. TOXIC TO AQUATIC LIFE WITH LONG LASTING

Hazard Statements (H): H302 - Harmful if swallowed. H411 - Toxic to aquatic life with long lasting effects.

Precautionary Statements (P): P264 - Wash hands and exposed skin areas with soap and warm water thoroughly after handling. P270 – Do not eat, drink or smoke while sing this product. P273 – Avoid release to the environment. P280 - Wear protective gloves/eye protection. P301+P312 - IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. P330 - Rinse mouth. P391 -Collect spillage. P501 - Dispose of contents/container to licenses treatment, storage and disposal facility (TSDF).

IF INGESTED: Call the NATIONAL BATTERY INGESTION HOTLINE at +1 (202) 625-3333 collect, day or night. In Canada, call +1 (416) 813-5900.

			4. FIRST AID MEASURES
4.1	First Aid:	Ingestion:	Give large quantities of water, but do NOT induce vomiting. Never give anything by mouth to an unconscious person. Contact the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration.
		Eyes:	If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If the eyes or face become swollen during or following use, consult a physician or emergency room immediately.
		Skin:	If an open battery cell: Remove contaminated clothing and wash affected areas with soap and water. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. Do not wear contaminated clothing until after it has been properly cleaned.
		Inhalation:	Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Page 2 of 6 HFT-94983

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 2001/58 & 1272/2008/EC Standards SDS Revision: 1.0 SDS Revision Date: 5/12/2015 4. FIRST AID MEASURES - cont'd May cause severe irritation of mouth, throat, esophagus, and stomach. 42 Effects of Exposure: Acute ingestion of zinc Ingestion: compounds may cause abdominal pain, nausea, vomiting, diarrhea, and severe cramping. Eyes: Severe irritation, burns, cornea damage, blindness. Lead compounds may cause irritation. Skin: Severe irritation, burns, and ulceration if open battery cell comes into contact with skin. Inhalation of lead dust or fumes may cause irritation of upper respiratory tract and lungs. Inhalation: 4.3 Symptoms of Overexposure: Severe discomfort, nausea, vomiting and headache. Harmful if swallowed. May cause corrosion and Ingestion: permanent tissue destruction of the esophagus and digestive tract. May cause irreversible eye injury. Contact with eyes may cause severe irritation, and possible eye burns. Eyes: Severe irritation, redness, and watering. Severe skin irritation, red, itching skin, burns and ulceration, if open battery cell comes into contact with Skin: Inhalation: May cause cyanosis (bluish discoloration of skin due to deficient oxygenation of the blood). Irritation may lead to chemical pneumonitis and pulmonary edema. Inhalation of fumes may cause metal fume fever, which is characterized by flu-like symptoms with metallic taste, fever, chills, cough, weakness, chest pain, muscle pain and increased white blood cell count. Causes respiratory tract irritation with possible burns. 4 4 Acute Health Effects: Hazardous exposure can occur only when product is heated above the melting point, oxidized or otherwise processed or damaged to create dust, vapor, or fume. Chronic Health Effects: 4.5 Chronic exposure may cause effects similar to those of acute exposure. 4.6 Target Organs: Eyes, Skin, Respiratory System, Central Nervous System (CNS) 4.7 Medical Conditions HEALTH 1 NA Aggravated by Exposure: **FLAMMABILITY** 0 0 PHYSICAL HAZARDS PROTECTIVE EQUIPMENT В **EYES** SKIN 5. FIREFIGHTING MEASURES Fire & Explosion Hazards: This material can burn but will not readily ignite. However, if involved in a fire, this product may 5.1 decompose at high temperatures to form toxic gases (e.g., CO, CO_X Hydrocarbons). Extinguishing Methods: 5.2 CO₂, Dry Chemical, Alcohol Foam. Use water spray to cool containers. 5.3 Firefighting Procedures: Use extinguishing media most appropriate for the surrounding fire. Do NOT get water inside containers. For small fires, use dry chemical, carbon dioxide, or water spray. For large fires, use dry chemical, carbon dioxide, alcohol-resistant foam, or water spray. Cool containers with flooding quantities of water until well after fire is out. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies. 6. ACCIDENTAL RELEASE MEASURES 6.1 Spills Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment, including protective gloves and eyewear. Plastic or rubber gloves, respirator, eye/face protection and chemical-resistant apron may be required for clean-up of large spills. Small Spills: Wear appropriate protective equipment including gloves and protective eyewear. Use a non-combustible material such as vermiculite or sand to soak up the product and place into a container for later disposal. Large Spills: Keep incompatible materials away from spill. Stay upwind and away from spill or release. Isolate immediate hazard area and keep unauthorized personnel out of area. Stop spill or release if it can be done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrant. Collect in acidresistant container. Keep spills and cleaning runoffs out of drains, municipal sewers and open bodies of water. 7. HANDLING & STORAGE INFORMATION Work & Hygiene Practices: Do not eat, drink or smoke when handling this product. Handle as to avoid puncturing container(s) 7.1 7.2 Storage & Handling: Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans) away from heat and direct sunlight. Keep away from incompatible substances. Protect containers from physical damage. Store product in wellfilled, appropriate coated and tightly closed containers avoiding influence of oxygen/air, light and humidity. Store at a cool and constant temperature. 7.3 Special Precautions: This battery is not designed for recharging. Recharging can cause battery leakage or high pressure rupture, in some cases. Inadvertent charging can happen if a battery is installed backwards. Accidental short circuit for a few seconds will not seriously affect the battery. But prolonged short circuit will cause the battery to lose energy, and can cause the safety release vent to open. Sources of short circuit include jumbled batteries in bulk containers, metal jewelry, metal covered tables or metal belts used for assembly of batteries in devices.

3.2	Ventilation & Engineering										
	Controls:	General mechanical (e.g., fans) or natural ventilation is sufficient when this product is in use. Use local or gene exhaust ventilation to effectively remove and prevent buildup of vapors or mist generated from the handling of the product. Ensure appropriate decontamination equipment is available (e.g., sink, safety shower, eye-wash station).									
3.3	Respiratory Protection:	No special respiratory protection is required under typical circumstances of use or handling. In instances where mist or vapors of this product are generated, and respiratory protection is needed, use only protection authorized by 29 CFR §1910.134, applicable U.S. State regulations, or the Canadian CAS Standard Z94.4-93 and applicable standards of Canadian Provinces, EC member									
3.4	Eye Protection:	Avoid eye contact. ANSI approvusing this sealed electric storage	States, or Australia. Avoid eye contact. ANSI approved safety glasses with side shields should be used when handling or using this sealed electric storage battery. Use equipment for eye protection tested and approved								
8.5	Hand Protection:	under appropriate government standards such as NIOSH (US) or EN 166(EU). Where contact is likely, impervious gloves are recommended. Do not wear rings, watches or jewelry. When handling large quantities of fluid (e.g., ≥ 1 gallon (3.8 L)), wear corrosion-resistant gloves. If necessary, refer to U.S. OSHA 29 CFR §1910.138, the appropriate standards of Canada, or the EU member states.									
8.6	Body Protection:	No apron required when handl resistant apron, clothing and bo be available.

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 2001/58 & 1272/2008/EC Standards SDS Revision: 1.0 SDS Revision Date: 5/12/2015 11. TOXICOLOGICAL INFORMATION Inhalation: NO 11.1 Routes of Entry: Absorption: YES Ingestion: YES 112 Toxicity Data: This product has NOT been tested on animals to obtain toxicology data. Toxicology data, found in scientific literature, is available for some of the components of the product and is presented below: Manganese Dioxide: LD₅₀ (oral, rat): 3,478 mg/kg 11.3 Acute Toxicity: See Section 4.4 Chronic Toxicity: 11.4 See Section 4.5 Lead is listed as ACGIH Group A3 (Confirmed animal carcinogen with unknown relevance to human); IARC Group 2B 11.5 Suspected Carcinogen: (Possibly carcinogenic to humans), NTP13 Group 2 (Reasonably Anticipated to be a Human Carcinogen); CA65 (cancer). Cadmium is listed as ACGIH Group A2 (Suspected human carcinogen); IARC Group 1 (Carcinogenic to humans); NTP13 Group 1 (Known human carcinogen); CA65 (cancer). Carbon Black is listed as IARC Group 2B (Possibly carcinogenic to humans); CA65 (cancer). 11.6 Reproductive Toxicity: This product contains Lead, which is suspected of causing reproductive toxicity in humans. Mutagenicity This product is not reported to produce mutagenic effects in humans Embryotoxicity: This product is not reported to produce embryotoxic effects in humans. Teratogenicity: This product is not reported to cause teratogenic effects in humans. Reproductive Toxicity: This product contains Lead, which is suspected of causing reproductive toxicity in humans. 11.7 Irritancy of Product: The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) upon prolonged or repeated exposure Biological Exposure Indices: 11.8 11.9 Physician Recommendations: Treat symptomatically and supportively. 12. ECOLOGICAL INFORMATION 12.1 Environmental Stability There are no specific data available for this product. 12.2 Effects on Plants & Animals: There are no specific data available for this product. Effects on Aquatic Life: 12.3 There are no specific data available for this product. 13. DISPOSAL CONSIDERATIONS Waste Disposal: Dispose of in accordance with federal, state, provincial and local regulations. 13.1 13.2 Special Considerations: NA 14. TRANSPORTATION INFORMATION The basic description (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR. 14.1 49 CFR (GND): **NOT REGULATED** IATA (AIR): NOT REGULATED 14.2 14.3 IMDG (OCN): NOT REGULATED TDGR (Canadian GND): NOT REGULATED 14.4 NOT REGULATED 14.5 ADR/RID (EU): 14.6 SCT (MEXICO) NOT REGULATED 14.7 ADGR (AUS): NOT REGULATED 15. REGULATORY INFORMATION SARA Reporting 15.1 This product contains Lead, Mercury and Zinc, substances subject to SARA Title III, section 313 reporting requirements. Requirement SARA Threshold Planning 15.2 There are no specific Threshold Planning Quantities for the components of this product. 15.3 TSCA Inventory Status: The components of this product are listed on the TSCA Inventory or are otherwise exempt. 15.4 CERCLA Reportable Quantity Zinc: 454 kg (1,000 lbs); Mercury: 0.454 kg (1.0 lbs) 15.5 Other Federal Requirements: This material does not contain any hazardous air pollutants. Zinc and Mercury are listed as priority pollutants under the CWA. Zinc, Lead and Mercury are listed as toxic pollutants under the CWA. Mercury is listed as Hazardous Air Pollutant (HAP) under the Clean Air Act. This product does not contain any Class 1 or Class 2 ozone depletors 15.6 Other Canadian Regulations: This product has been classified according to the hazard criteria of the CPR and the Safety Data Sheet contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List. WHMIS D2B (Other Toxic Effects)

15.7	State Regulatory Information:	(FL), Massachusetts Hazardous Substances Lis Substances List (MN), New Jersey Right-to-Know Right-to-Know List (PA), and Washington Permiss Potassium Hydroxide is found on the following state Graphite is found on the following state criteria list Manganese Dioxide is found on the following state Zinc is found on the following state criteria lists: IL No other ingredients in this product, present in a criteria lists: California Proposition 65 (CA65), De (FL), Illinois Hazardous Substances List (IL), Substances List (MI), Minnesota Hazardous Su Hazardous Substances List (NY), Pennsylvania F Washington Permissible Exposures List (WA), Wi	ate criteria lists: FL, MA, MN, PA, and WA. ts: FL, MA, MN, PA, and WA. e criteria lists: IL, MA, PA, and RI, MA, NJ, and PA. concentration of 1.0% or greater, are listed on any of the following state laware Air Quality Management List (DE), Florida Toxic Substances List Massachusetts Hazardous Substances List (MA), Michigan Critical libstances List (MN), New Jersey Right-to-Know List (NJ), New York Right-to-Know List (PA), Rhode Island Hazardous Substances List (RI),
		l ·	arning be given to customers in the State of California.
15.8	Other Requirements:	Causes burns. Very toxic to aquatic organisms of environment. Safety Phrases (S): 1/2-26-36/37/3 children. In case of contact with eyes, rinse in advice. Wear suitable protective clothing/ gloves you feel unwell seek medical advice immediately	Annex I of EU Directive 67/548/EEC: Phrases (R): 22-34-50/53 – Harmful if swallowed. may cause long-term adverse effects in the aquatic 39-45-60-61 – Keep locked up and out of reach of mediately with plenty of water and seek medical as and eye/face protection. In case of accident or if (show label where possible). This material and its aste. Avoid release to the environment. Refer to
		16. OTHER INFO	DRMATION
16.1	Other Information:		IC TO AQUATIC LIFE WITH LONG LASTING EFFECTS.
		Wash hands and exposed skin areas with soap while sing this product. Avoid release to the SWALLOWED: Call a POISON CENTER/doctor it	and warm water thoroughly after handling. Do not eat, drink or smoke e environment. P280 – Wear protective gloves/eye protection. IF f you feel unwell. Rinse mouth. Collect spillage.
16.2	Terms & Definitions:	See last page of this Safety Data Sheet.	
16.3	Disclaimer:	government regulations must be reviewed for ap Tools USA, Inc.'s knowledge, the information accuracy, suitability or completeness is not guara provided. The information contained herein rela	SHA's Hazard Communication Standard, 29 CFR §1910.1200. Other oplicability to this product. To the best of ShipMate's & Harbor Freight contained herein is reliable and accurate as of this date; however, anteed and no warranties of any type, either expressed or implied, are ites only to the specific product(s). If this product(s) is combined with the considered. Data may be changed from time to time. Be sure to

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 2001/58 & 1272/2008/EC Standards

SDS Revision Date: 5/12/2015

DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

GENERAL INFORMATION:

CAS No.	Chemical Abstract Service Number
EXPOSURE	LIMITS IN AIR:
ACGIH	American Conference on Governmental Industrial Hygienists
С	Ceiling Limit
ES	Exposure Standard (Australia)
IDLH	Immediately Dangerous to Life and Health
OSHA	U.S. Occupational Safety and Health Administration
PEL	Permissible Exposure Limit
STEL	Short-Term Exposure Limit
TLV	Threshold Limit Value
TWA	Time Weighted Average

FIRST AID MEASURES:

Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body

HMIS-III HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

0	Minimal Hazard
1	Slight Hazard
2	Moderate Hazard
3	Severe Hazard
4	Extreme Hazard

PERSONAL PROTECTION RATINGS:

Α		
В		
С		
D		
Е		
F		

Protective Clothing & Full Suit

Dust Respirator

Full Face

Airline Hood/Mask or SCBA

OTHER STANDARD ABBREVIATIONS:

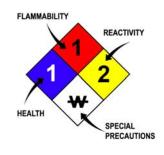

ML	Maximum Limit
mg/m3	milligrams per cubic meter
NA	Not Available
ND	Not Determined
NE	Not Established
NF	Not Found
NR	No Results
ppm	parts per million
SCBA	Self-Contained Breathing Apparatus

NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILITY LIMITS IN AIR:				
Autoignition Temperature	Minimum temperature required to initiate combustion in air with no other source of ignition			
LEL	Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			

HAZARD RATINGS:

0	Minimal Hazard			
1	Slight Hazard			
2	Moderate Hazard			
3	Severe Hazard			
4	Extreme Hazard			
ACD	Acidic			
ALK	Alkaline			
COR	Corrosive			
₩	Use No Water			
ох	Oxidizer			
TREFOIL	Radioactive			

TOXICOLOGICAL INFORMATION:

LD ₅₀	Lethal Dose (solids & liquids) which kills 50% of the exposed animals s
LC ₅₀	Lethal concentration (gases) which kills 50% of the exposed animal
ppm	Concentration expressed in parts of material per million parts
TD _{io}	Lowest dose to cause a symptom
TCLo	Lowest concentration to cause a symptom
TD _{Io} , LD _{Io} , & LD _o or	Lowest dose (or concentration) to cause lethal or toxic effects
TC, TC _o , LC _{lo} , & LC _o	
IARC	International Agency for Research on Cancer
NTP	National Toxicology Program
RTECS	Registry of Toxic Effects of Chemical Substances
BCF	Bioconcentration Factor
TL _m	Median threshold limit
log K _{ow} or log K _{oc}	Coefficient of Oil/Water Distribution

REGULATORY INFORMATION:

WHMIS	Canadian Workplace Hazardous Material Information System					
DOT	U.S. Department of Transportation					
TC						
EPA						
DSL Canadian Domestic Substance List						
NOHSC	National Occupational Health and Safety Commission (Australia)					
NDSL	Canadian Non-Domestic Substance List					
PSL	Canadian Priority Substances List					
TSCA U.S. Toxic Substance Control Act						
EU	European Union (European Union Directive 67/548/EEC)					
WGK	Wassergefährdungsklassen (German Water Hazard Class)					
HMIS-III	MIS-III National Paint & Coatings Association Hazardous Materials Identification System					

WORKEL ACE HAZARDOUS MATERIALS IDENTIFICATION (WHMIS) SYSTEM
